CAUTION

Anyone who uses the Sega Dreamcast should read the operating manual for the software and console before operating them. A responsible adult should read these manuals together with any minors who will use the Sega Dreamcast before the minor uses it.

HEALTH AND EPILEPSY WARNING

Some small number of people are susceptible to epileptic seizures or loss of consciousness when exposed to certain flashing lights or light patterns that they encounter in everyday life, such as those in certain television images or video games. These seizures or loss of consciousness may occur even if the person has never had an epileptic seizure.

If you or anyone in your family has ever had symptoms related to epilepsy when exposed to flashing lights, consult your doctor prior to using the Sega Dreamcast.

In all cases, parents should monitor the use of video games by their children. If any player experiences dizziness, blurred vision, eye or muscle twitches, loss of consciousness, disorientation, any involuntary movement or convulsion, **IMMEDIATELY DISCONTINUE USE AND CONSULT YOUR DOCTOR BEFORE RESUMING PLAY.**

To reduce the possibility of such symptoms, the operator must follow these safety precautions at all times when using the Sega Dreamcast.

- Sit a minimum of 6.5 feet away from the television screen. This should be as far as the length of the controller cable.
- Do not play if you are tired or have not had much sleep.
- Make sure that the room in which you are playing has all the lights on and is well lit.
- Stop playing video games for at least ten to twenty minutes per hour. This will rest your eyes, neck, arms and fingers so that you can continue comfortably playing the game in the future.

A WORLD AT WAR!

The Serbian Republic is a beautiful region in the center of the Eurasian continent, nestled between the Black and Red Seas. For decades it has been one of the most peaceful countries in the Union.

Secretly, though, it's been rumbling with unrest and dissatisfaction. Suddenly, the Republic army erupts in a wide-spread coup against the Union garrison and announces its independence. The Union government is shaken to its roots.

Other Allied Nations make a gesture of assisting the Union's military government. But large-scale military intervention is viewed as unwise as the balance of power shifts daily between the rebels and the Union forces.

The Union government contacts Giga Wing, an elite special forces team, to take the situation in hand. Five young aces take off and head to the Serbian Republic.

It's an entirely new battle!

THE RISE OF GIGA WING!

Nothing is impossible for Giga Wing pilots!

Giga Wing is an independent group of air mercenaries originally formed by pilots of the elite Unit 100 Airborne. They played a legendary role in the last war, but have since resigned from the Unit in peacetime.

Since Giga Wing pilots do not pay tribute to any nation and aren't bound by any law, hopeful applicants are not questioned about their past or the history of their airships. The only qualification is excellence!

Only the highest qualified aces are allowed to join. Because of this, Giga Wing pilots display a battle prowess that significantly contributes to successful battles - while engaging the minimum number of pilots.

PILOTS & FIGHTERS

KART

A hero of the previous war. It is said that his squad's performance brought about an early end to the war.

However, Kart's entire team was annihilated in a battle at Lullie Sea, leaving him with no one to lead. After the war, Kart became a mercenary, earning the ominous nickname "Companion Killer."

KINGFISHER

An all-around fighter equipped with a wide-range shot.

Speed: Medium (1)

Shot: Forward wide-range gun

Bomber: Spark Bomber

GIGA WING 2

ROMI

A perfect ace pilot whose skill is unrivaled in the team. As a war orphan, Romi was raised in a military institution. While there, she received special education as a fighter pilot.

SPARROW

The fastest fighter equipped with a forward collective shot.

Speed: Fastest (5)
Shot: Forward collective gun
Bomber: Wing Bomber (R)

LIMI

The last survivor of an ancient Serbian family. Limi keeps alive the legend of the family's powerful canon.

RAVEN

A technical fighter equipped with explosive shot.

Speed: Fast (3)
Shot: Forward explosive gun
Bomber: Wing Bomber (L)

GIGAWING 2

CHERY

Officially registered as one of the replicoids (artificial soldiers) mass-produced during the war, in reality Chery is an original artificial human. She was found in a sanctuary.

STORK

A super-fast aircraft with the ability to shoot in all directions.

Speed: Fast (4)

Shot: All-direction homing gun

Bomber: Prominence Bomber

RALUGO

Ralugo once fought for independence for his family in Serbia, but lost to the huge power of the empire. After living as a drifter, he has decided to become a Giga Wing mercenary.

ALBATROSS

A powerful fighter equipped with powerful close-range shot.

Speed: Middle (2)
Shot: Vicinity Bomb
Bomber: Gravity Bomber
